OBJECTIVE

Skilled Full Stack Software Developer with a transferable background in the retail and resultant industries. Actively seeking an opportunity in the development field to contribute my skills and passion for building applications with the end user in mind.

PROFESSIONAL EXPERIENCE

Coder Foundry, Web Software Engineer

Remote · September 2020 – December 2020

- Created two primary projects, including:
 1. A portfolio and blog site using C#, MVC, HTML5, CSS3, Bootstrap, JS & jQuery.
 2. Fully designed and developed a multi-functional issue tracker web application, implementing enhanced roles & security, including a Code-First relational database designed and modeled in PostgreSQL. Technologies used include: .Net Core v3.1, MVC6, C#, LINQ, PostgreSQL, Entity Framework, Docker, PgAdmin, Heroku and jQuery DataTables.

Various Retail and Restaurants, Associate

2015 – 2020

- Served as a dedicated and dependable team member for various establishments in the Montgomery, TX area
- Maintained the highest level of customer service while interacting with customers and guests
- Responsible for ensuring a clean environment for all who visit the establishments
- Responsible for planning and preparing staff meals weekly, ensuring the cost remained within the given budget.
